

Streetlight Form

Approved by MNA Streetlight Committee Co-Chairs:
Stephanie Methven (stephanie@methven.us) & Connie Gray (texasconniegray@gmail.com)
MNA President: Eric Deal (mna@dealfamily.net)

Regarding the installation of streetlights on or near my property, our preference is:

_____ **Streetlight** _____ **No Streetlight**

Name of Property Owner: _____

Address: _____

Property Owner's Signature: _____

Property Owner's Email Address: _____

The MNA board is asking every homeowner to complete this form, which specifies whether or not each property owner is willing to have a streetlight on his/her property. This is not a majority vote on installing all lights or no lights. Property owners will have the final decision on whether a light is installed in the immediate vicinity of their lot.

We have provided an additional double-sided (Position For Streetlights & Position Against Streetlights) information sheet to aid in your decision of streetlight installation. It is imperative that ALL homeowners provide feedback about whether lighting is installed in the proximity of their home. Please include your email address (or phone number if you do not have an email address) in order for us to quickly disseminate information as we move forward. Please note that a property owner's selection can be changed via a written request and signature to the Streetlight Committee.

Please return your form to: _____ **By: May 16th, 2010**

Or Mail To:
Stephanie Methven
8806 Scotsman Drive
Austin, TX 78750

On September 21, 2009, Austin Energy employees met with the neighborhood in the Mountain View Park to answer questions about the streetlight process. The minutes of that meeting and the current streetlight design plat can be seen at (<http://www.mountainneighborhood.com/streetlights>).

Additional information on the history of streetlights in The Mountain can be found at the MNA website (<http://www.mountainneighborhood.com/>).

After we understand the scope of the project, the option of decorative lighting will be addressed. It will require a voluntary fundraising drive to pay for upgrades before Austin Energy will install the lights.

The Streetlight Committee will be hosting a gathering at the Mountain View Park on May 16th, 2010 from 6-8pm for those who would like to discuss the streetlight process.
